

# FoodBall : The card game

*Foodball is a card game that combines vegetables, exercises, and health problems with a football card game.*

## Vegetables as football players

The cards have the vegetables as football players. We can also name them after famous players.

## The Players can have positions

The Vegetables can also have positions like Attacker, Defence and Mid-Field.

## Health Problems as damage cards

In contrast to the power cards we can also have disease cards, which reduce the power of the player

## Mega Packs

Mega Packs can contain tons of special cards or cards related to a specific category. They can also contain just a whole of cards.

## The Points system

The cards have points as Nutrient Power. They also have other stats as Iron, calcium, Vitamins, Minerals, etc.

## There can also be some exercises as power cards

There can be some power cards with exercises which boost the player's power and also give the benefits of the exercise.

## Conclusion

This game will be fun for is making them aware of the benefits of vegetables, exercise, and health problems as well. The game will provide a intuitive way to learn some very valuable information regarding health and fitness
